About Jointly

- ➡ Jointly is an innovative mobile and online app that is designed by carers for carers.

- ➡ Jointly makes caring for someone a little easier, less stressful and a lot more organised by making communication and co-ordination simpler between those who are sharing the care.

- ➡ NRS Healthcare has team up with Carers UK to offer carers free access to Jointly, to help making caring easier.

- ➡ With Jointly you can create a circle of care for the person you are looking after. Once you have set up your Jointly circle, you can start using Jointly to organise care.

- ➡ You can use it on your own or you can invite other people to join you and share the care.

- ➡ Jointly works with Apple products (iphone, ipad), Android devices and on most modern web browsers (home computers, laptops, smartphones, tablets).

> ❝ *I think it's a great idea as we use self-directed support and this app is a great way of sharing information with the people I choose. What if something happens to me? Then everything being in my head is no good to anyone. This app will enable me to keep everyone in the loop. Thank you!*

> ❝ *Looking after someone can be so complicated. Jointly helps me stay on top of things and share information easily with everyone involved in my son's care.*
